### RESEARCH INTERESTS

Distributed Computing and Storage  
Edge Intelligence  
Distributed Deep Learning  
Deep Reinforcement Learning

### EDUCATION

**Ph.D in Computer Science** Sept. 2019-Present  
**University of Chinese Academy of Sciences, China**

- Thesis: Theories and Methods of Edge-Cloud Collaboration for Edge Intelligence
- Advisor: Prof. Yang Wang

**Master of Electronic Engineering** Sept. 2015-May 2017  
**Wuhan University of Technology, China**

- Thesis: Real-time Congestion Analysis System for Urban Rail Transit Based on Big Data
- Advisor: Prof. Feng Lv

**B.S. in Electronic Engineering** Sept. 2011-May 2015  
**Wuhan University of Technology, China**

- Thesis: A Self-Organized Electronic Tag System based on the Wireless Ad-Hoc Network
- Advisor: Prof. Dejun Chen

#### PAPERS UNDER REVIEW

1. **Hao Dai**, Jiashu Wu, Jerome Yen, Yang Wang, and Chengzhong Xu, “An Overlapping Parallel Training Method for On-Policy Deep Reinforcement Learning”, under review.

#### RESEARCH EXPERIENCE

**Shenzhen Institutes of Advanced Tech.      Research Assistant      09/2019-Present**  
**Chinese Academy of Sciences**

*Research Projects:*

- *Edge Cloud Collaborative Computing Methods and Applications in C-V2X*, Shenzhen-Hong Kong-Macau S&T Program (Category C), SGDX20220530111001003, 2023-2025, Research Assistant.
- *Key Technology of Network Architecture Optimization in AI Computing Cluster*, Key-Area Research and Development Program of Guangdong Province (No. 2021B0101400005), 2021-2022, Research Assistant.
- *An Integrated Storage and Computing Platform for Scientific Research Big Data*, the Third Xinjiang Scientific Expedition Program (No. 2021xjkk1300), 2021-2022, Research Assistant.
- *Software-defined Theory and Method for Human-Computer Integration–Scenario-driven Intelligent Cloud-Edge Management and Performance Optimization*, Key-Area Research and Development Program of Guangdong Province (No. 2020B010164002), 2020-2022, Research Assistant.
- *Cloud Computing Architecture and Platform for Human-Computer Integration–Data Driven Technology for Self-Adaptive and Evolutionary Applications*, National Key R&D Program of China (No. 2018YFB1004804), 2018-2021, Research Assistant.

#### WORK EXPERIENCE

**Shenzhen Institute of Beidou Applied Technology      Senior Data Mining Engineer**  
**05/2016-08/2019**

- Technical Head of the Big Data Control Platform for Shenzhen Public Security Bureau, responsible for the construction of the Traffic Big Data Mining Platform and Management System.
- Responsible for the architecture design and data mining of the Big Data Platform for Shenzhen Public Security Bureau. In charge of real-time computation and storage of PB-level traffic big data, constructing real-time travel knowledge graphs, event modeling, and analytical mining.
- Construction of the real-time passenger flow analysis platform for Shenzhen Metro Company. Responsible for modeling passenger travel, real-time analysis of passenger travel destinations, and real-time metro passenger flow. Utilizes GCN model for passenger flow prediction.

## COMPUTER SKILLS

<b>Operating Systems:</b>	Linux	2012-Present
<b>Programming Languages:</b>	Java	2011-Present
	C/C++	2011-Present
	Python	2013-Present
	Scala	2014-Present
<b>Databases:</b>	Redis	2013-Present
	HBase	2014-Present
<b>Distributed Programming:</b>	Spark	2016-Present
	Pytorch	2017-Present
	Ray	2021-Present
<b>Development Tools:</b>	Git	2016-Present
	Docker	2019-Present

## TEACHING EXPERIENCE

### Teaching Assistant

- |                       |   |             |
|-----------------------|---|-------------|
| • Distributed Storage | Dept. of Computing Science<br>Shenzhen Institutes of Advanced Tech. | Spring 2022 |
| • Operating System    | Dept. of Computing Science<br>Shenzhen Institutes of Advanced Tech. | Fall 2021   |

## AWARD AND HONORS

President Scholarship of Shenzhen Institute of Advanced Technology	2022-2023
Outstanding Student of University of Chinese Academy of Sciences	2022-2023
Outstanding Student of University of Chinese Academy of Sciences	2021-2022
University of Chinese Academy of Sciences Ph.D Scholarship	2019-2022
